Dear Company/Organization/Institution,

It is an honour and a privilege to invite you to the 10th International Operational Modal Analysis Conference (IOMAC 2024)! The IOMAC is held every two years and represents the most important international event in the field of Operational Modal Analysis and its applications (such as vibration-based Structural Health Monitoring, model updating, and so on). The past editions were held in Copenhagen (DK) in 2005 and 2007, Portonovo (IT) in 2009, Istanbul (TR) in 2011, Guimaraes (PT) in 2013, Gijon (ES) in 2015, Ingolstadt (DE) in 2017, Copenhagen (DK) in 2019, and Vancouver (CAN) in 2022. The IOMAC 2024 Conference is expected to attract participants from the five Continents and represents a unique opportunity for business showcasing and for meeting renowned experts in the field.

IOMAC 2024 will be the ideal place to cross fertilize ideas and applications from Academia, Industry, Research Labs, and Public Agencies from around the world and discuss about the state-of-the-art and the latest developments in Operational Modal Analysis and correlated technologies in the fields of aerospace, civil, industrial, and mechanical engineering.

This document outlines the opportunities available to You to become a sponsor/Exhibitor of this outstanding research and professional meeting, and to be recognized as a world leader in the area of Operational Modal Analysis, modal-based SHM, and correlated technologies. Four sponsorship categories were created to satisfy any business model, and to maximize the visibility of Your Company at the IOMAC 2024. The categories are: Platinum, Gold, Silver, and Bronze.

The congress venue, Villa Doria D'Angri (a heritage building which hosted, among the others, Richard Wagner) in Naples, is conveniently located in one of the most panoramic places of the City, the Posillipo hill, near the waterfront and the city center.

To maximize the visibility of the Exhibitors, the booths will be conveniently located adjacent to the lunch and coffee breaks areas (see the map) and along the routes to the session rooms.

To promote the brand of the Sponsors, the Logo will be strategically branded based on the option You select. Either opportunities (exhibition or sponsorship) will enable Your company to stand out and know and being known by hundreds of leading professionals.

Please explore this document at your convenience, in order to determine which package best fits your needs. Moreover, feel free to contact us for any question you may have or to discuss any sponsorship activity you may want to promote.

Becoming a Sponsor/Exhibitor at IOMAC 2024 is an exclusive opportunity to showcase your Organization to the global Operational Modal Analysis community!

We look forward to sharing this unique Event with you.
